The Fourth Sheet

Deliveries in and out · as at 6 Oct 2026, 2pm

SAMPLE DATA · invented figures for demonstration

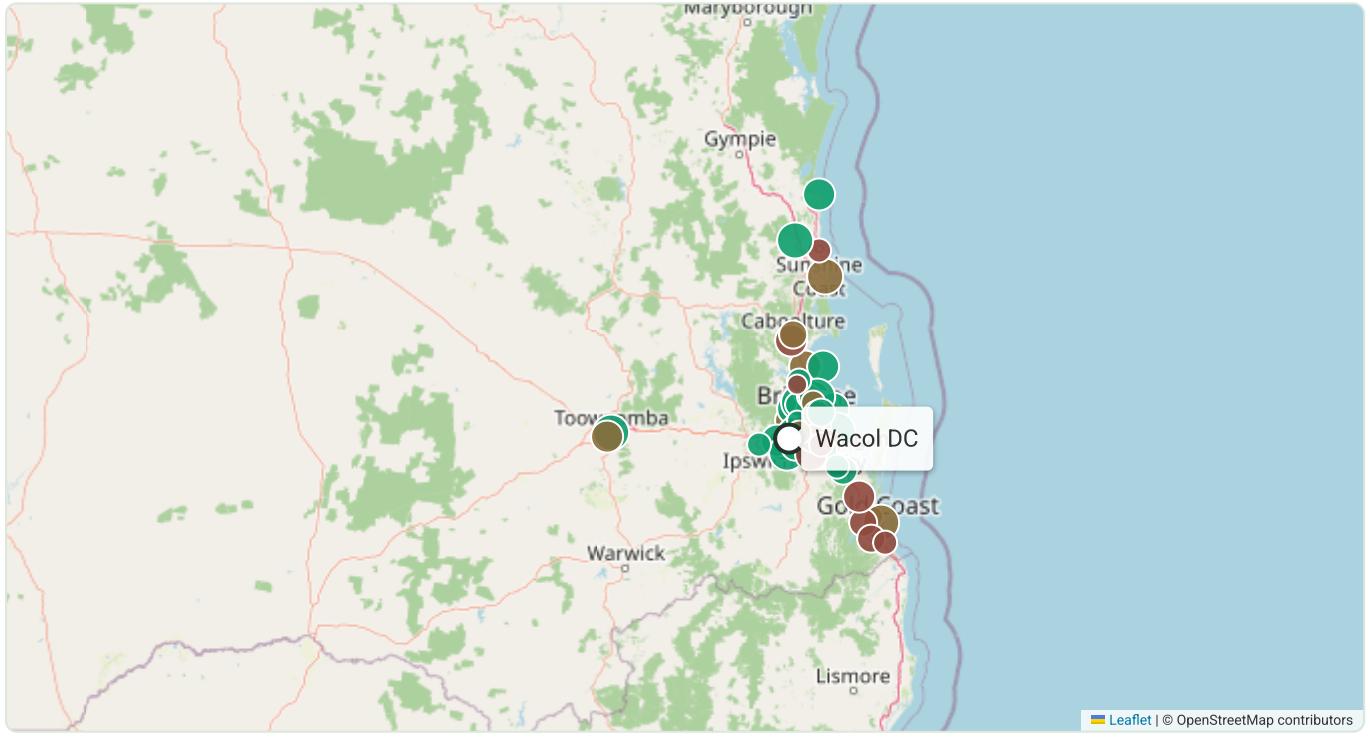

# Sample Distribution: Wacol DC

### How final is this data?

| | | |
|---|---|---|
| **Today (6 Oct)** | Incomplete | As at 2pm, Tue 6 Oct 2026: deliveries still on the road are shown as on their way. |
| **1–5 October** | Provisional | October isn't locked yet: late proofs of delivery can still change it. |
| **September 2026 and earlier** | Locked | Closed. These numbers won't change. |

## Deliveries out, to customers · last 30 days

| Deliveries | On time | Late | Overdue now | In full |
|---|---|---|---|---|
| 868 | 92.9% | 60 | 1 | 98.0% |

### Where it's going wrong

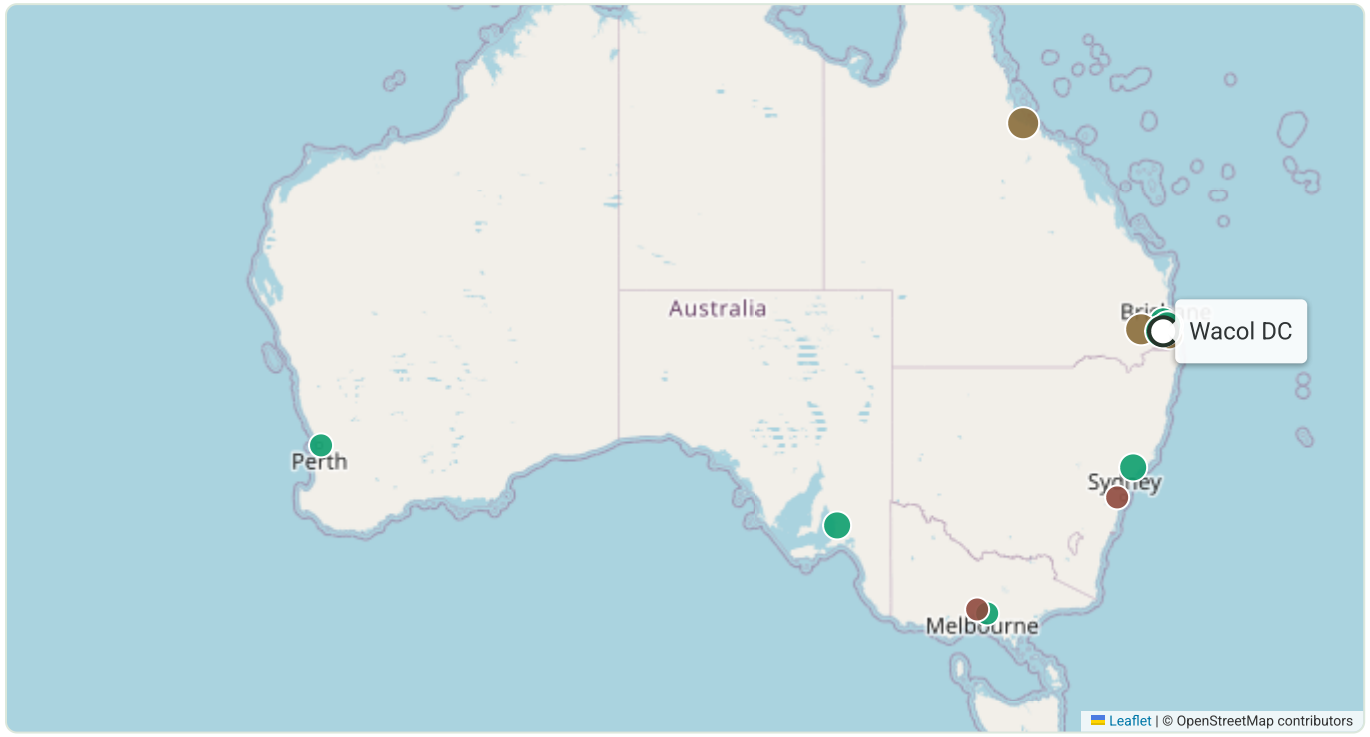

- **Carrier A · Gold Coast**: 18 of 64 late (28.1%)
- **Carrier B · Moreton Bay**: 7 of 68 late (10.3%)
- **Carrier A · Logan**: 5 of 63 late (7.9%)

95%+ on time · 80–95% · under 80% or overdue

Dot size = number of deliveries. Every delivery is in the spreadsheet download.

# Deliveries in, from suppliers · last 30 days

| Deliveries | On time | Late | Overdue now | In full |
|---|---|---|---|---|
| 128 | 90.5% | 10 | 2 | 90.3% |

## Where it's going wrong

- **Supplier C · Line-haul (road)**: 3 of 6 late (50.0%)
- **Supplier D (imports) · Container cartage**: 3 of 8 late (37.5%)
- **Supplier K · Line-haul (road)**: 2 of 12 late (16.7%)

95%+ on time · 80–95% · under 80% or overdue

Dot size = number of deliveries. Every delivery is in the spreadsheet download.
