The Fourth Sheet

Example report · SMEs

SAMPLE DATA · invented figures for demonstration

What does it cost to win a customer?

Period: January 2026. Marketing spend divided by the customers it actually brought in (a customer's first ever job), month by month.

How final is this data?

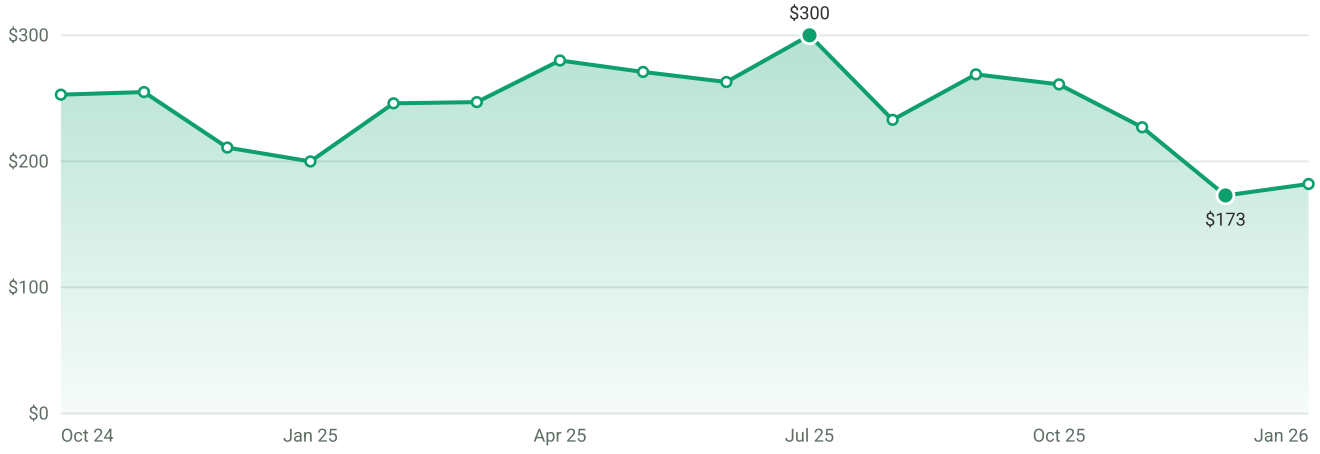

January 2026 Locked January 2026 is locked (closed 3 Feb 2026). These numbers won't change.

In short: $182 per new customer in January: 44 new customers from $8,000 of marketing.

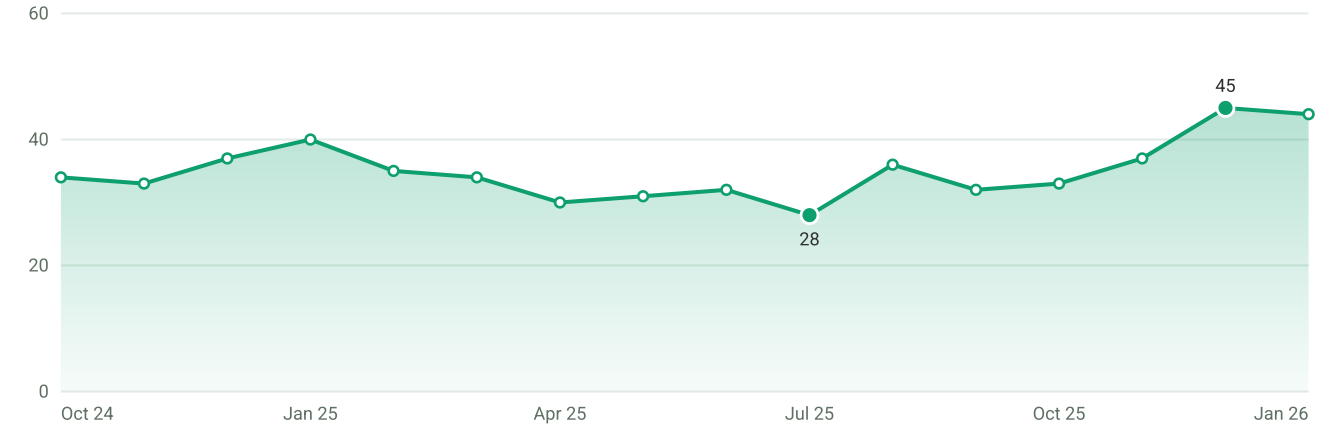

January 2026	January last year	Year to date (Jul to Jan 2026)
$182	**$200**	**$228**
December $173	40 new customers from $8,000	same period last year: not in the data

Cost to win a customer, by month

All · $ per new customer

All · New customers

Customers are counted in the month of their first job. Every month, by line, is in the spreadsheet download.

What it shows

44 new customers came from $8,000 of marketing in January, against 45 from $7,800 in December: $182 each, up from $173.

What you'd do about it

Worth knowing which channels brought this month's customers in: recording the source of each new customer shows the cost per channel.
