The Fourth Sheet

Example report · SMEs

SAMPLE DATA · invented figures for demonstration

What does it cost to win a customer?

Period: February 2026. Marketing spend divided by the customers it actually brought in (a customer's first ever job), month by month.

How final is this data?

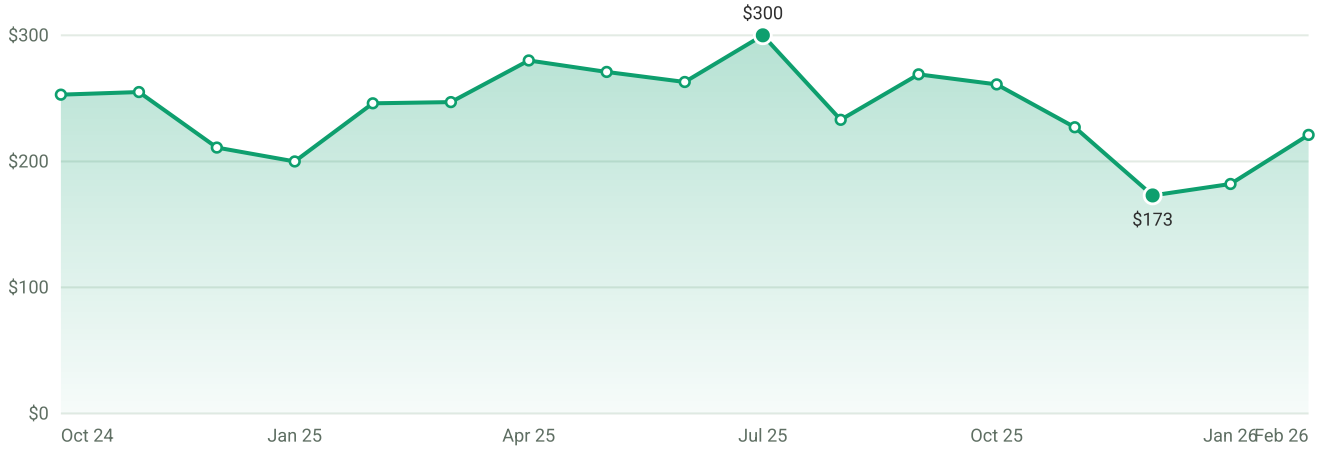

February 2026 Locked February 2026 is locked (closed 3 Mar 2026). These numbers won't change.

In short: $221 per new customer in February: 39 new customers from $8,600 of marketing.

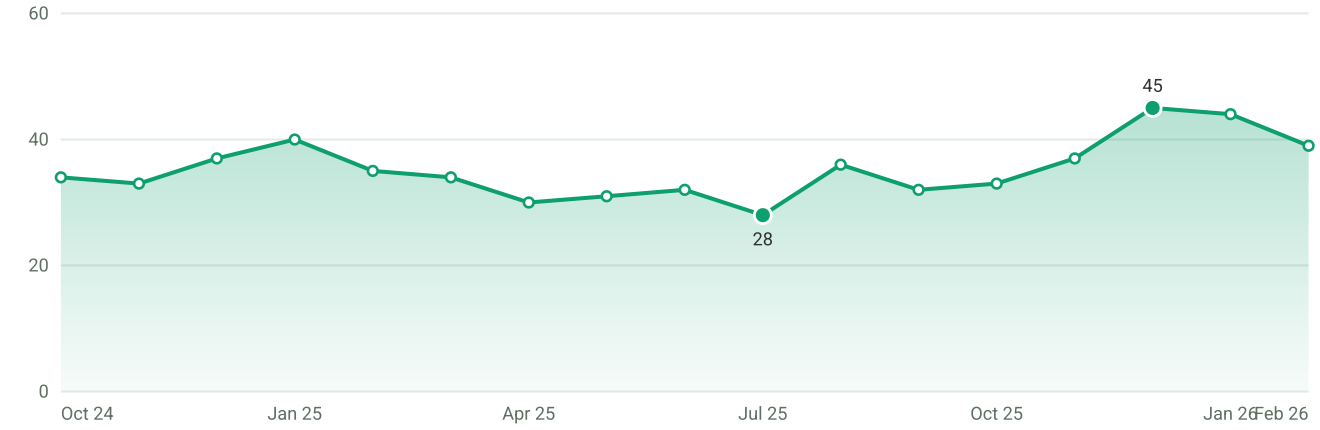

February 2026	February last year	Year to date (Jul to Feb 2026)
$221	**$246**	**$227**
January $182	35 new customers from $8,600	same period last year: not in the data

Cost to win a customer, by month

All · $ per new customer

All · New customers

Customers are counted in the month of their first job. Every month, by line, is in the spreadsheet download.

What it shows

39 new customers came from $8,600 of marketing in February, against 44 from $8,000 in January: $221 each, up from $182.

What you'd do about it

Worth knowing which channels brought this month's customers in: recording the source of each new customer shows the cost per channel.
