The Fourth Sheet

Example report · SMEs

SAMPLE DATA · invented figures for demonstration

What does it cost to win a customer?

Period: April 2026. Marketing spend divided by the customers it actually brought in (a customer's first ever job), month by month.

How final is this data?

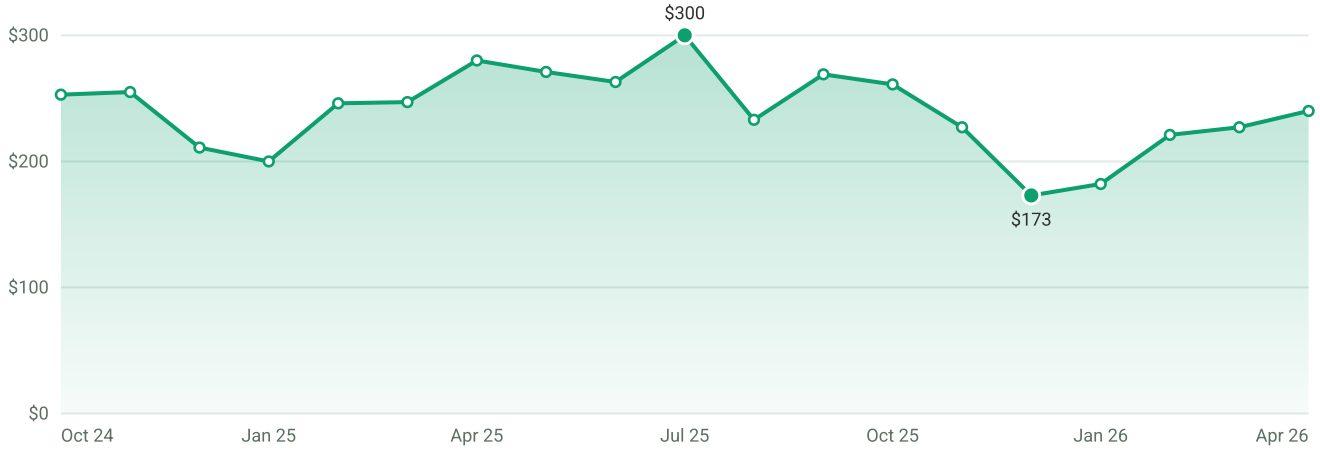

April 2026 Locked April 2026 is locked (closed 5 May 2026). These numbers won't change.

In short: $240 per new customer in April: 35 new customers from $8,400 of marketing.

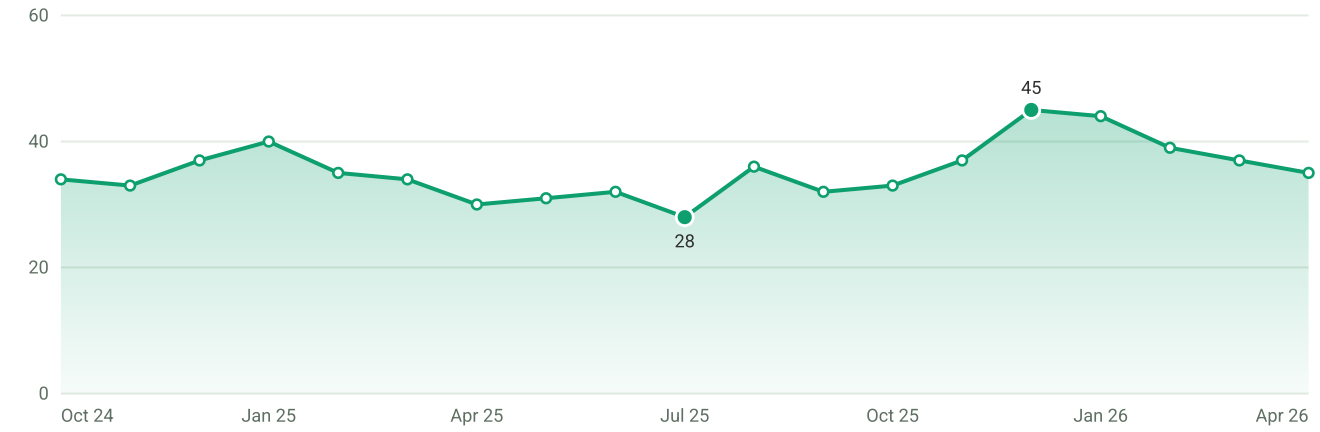

April 2026	April last year	Year to date (Jul to Apr 2026)
$240	**$280**	**$228**
March $227	30 new customers from $8,400	same period last year: not in the data

Cost to win a customer, by month

All · $ per new customer

All · New customers

Customers are counted in the month of their first job. Every month, by line, is in the spreadsheet download.

What it shows

35 new customers came from $8,400 of marketing in April, against 37 from $8,400 in March: $240 each, up from $227.

What you'd do about it

Worth knowing which channels brought this month's customers in: recording the source of each new customer shows the cost per channel.
