SAMPLE DATA · invented figures for demonstration

Will cash cover payroll next month?

Period: September 2026. A 13-week cash forecast from 30 September: cash at bank, plus what customers owe on their usual payment dates and new work at its recent rate, less pay runs, supplier bills, the BAS and finance on their due dates. Every day opens its workings.

How final is this data?

September 2026 Locked September 2026 is locked (closed 2 Oct 2026). These numbers won't change.

In short: Yes: $69,267 forecast in the bank after the 29 October pay run, the tightest in October, and at least one pay run in reserve for all 13 weeks.

Cash at bank, 30 Sep	Paid to employees in October	After the tightest pay run, 29 Oct	Lowest point, next 13 weeks
$120,228	**$109,833**	**$69,267**	**$41,013**
end of the day	3 fortnightly pay runs, net pay + super	buffer: one pay run, $36,611	30 November

What it shows

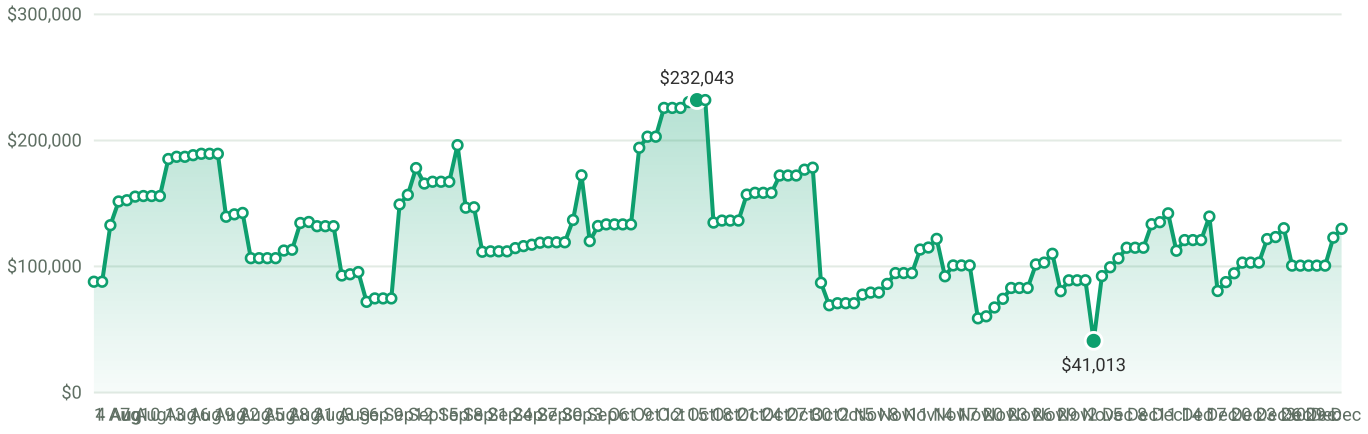

Cash at bank was $120,228 at 30 September. October has 3 pay runs ($109,833). The tightest is 29 October: $69,267 left after paying wages, $32,656 more than a pay run in reserve. The lowest point in the 13 weeks is $41,013 on 30 November.

What you'd do about it

15 invoices ($8,734) are already past the customer's usual payment date; the forecast assumes they arrive within a week. Without them, the lowest point would be $32,279. October is one of the two months a year with three pay runs: $36,611 more than a usual month. The July to September BAS ($86,253) is due 28 October: GST $32,817, PAYG withheld $47,754 and the PAYG instalment $5,682.

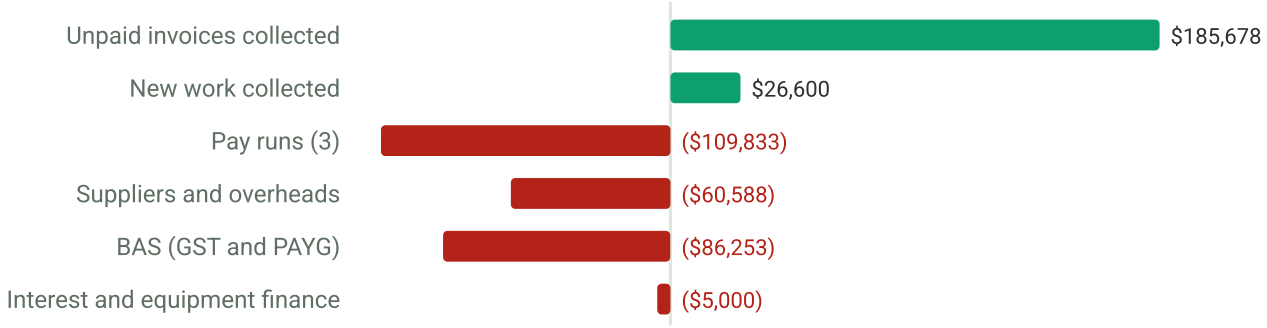

Cash at bank, every day: actual to 30 Sep, then forecast to 30 Dec

All · Cash at bank $

Lighter line = forecast. Customers are expected on their usual payment dates; new work at the last three months' rate; pay runs, supplier runs, interest, equipment finance and the BAS on their due dates. Receipts and bills include GST. Money only moves on banking days (not weekends or Queensland public holidays). Every month, by line, is in the spreadsheet download.

October: where the cash comes from and goes (forecast)

13 weeks, week by week

Week ending	Cash at start	Unpaid invoices collected	New work collected	Pay runs	Suppliers and overheads	BAS (GST and PAYG)	Interest and finance	Cash at end	Lowest in the week
7 Oct	$120,228	$116,158	$3,129	($36,611)	$0	$0	$0	$202,904	$132,057
