SAMPLE DATA · invented figures for demonstration

How many months of runway do you have?

Period: September 2026. How long the organisation could keep going on its own money: cash at bank, less unspent grant money (which belongs to the funders' programs) and GST and PAYG owed to the ATO, divided by a month's spending.

How final is this data?

September 2026 Locked September 2026 is locked (closed 2 Oct 2026). These numbers won't change.

In short: 1.9 months of spending in unrestricted cash, against a 3.0 months reserves target.

Runway now	Target	Gap	Runway in August
1.9 months	**3.0 months**	**$183,263**	**1.9 months**
target 3.0 months	reserves target	to reach the target	at August's rate of spending

What it shows

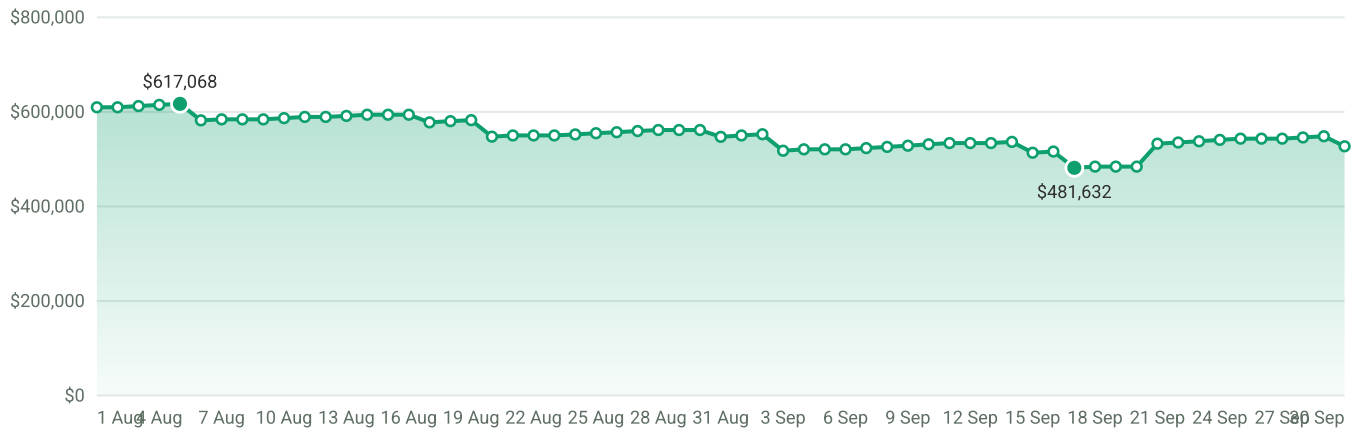

Unrestricted cash ($305,437, after setting aside unspent grant money) would cover 1.9 months of spending at September's rate of spending, short of the 3.0 months target by $183,263.

What you'd do about it

A reserves plan is the usual next step: how much of each month's surplus goes to reserves, and by when the gap is closed.
