Cash and balance sheet

Client payments	each invoice is paid on its own date; unpaid invoices at month end = debtors
Contractors	paid the following month

GST, BAS and payroll

GST	registered; 10%, accruals basis: GST on a sale is owed when it's invoiced, a credit on a bill is claimed when it's received. The P&L excludes GST; invoices, bills, debtors, creditors and cash include it
BAS	quarterly, self-lodged: GST on sales − GST credits + PAYG withheld + PAYG instalment. July to September is due 28 October; October to December, 28 February
Pay runs	fortnightly on Thursdays: $33,205 gross (a 26th of the year's gross wages); net pay $25,236 and super $3,985 paid on the day; PAYG withheld (about 24% of gross, $7,969) goes with the BAS. Two months a year have three pay runs
Super	12% of gross wages, paid with each pay run (Payday Super, from 1 July 2026)
Payroll tax	none: Queensland's threshold is $1.3 million of wages a year (rate 4.75% above it); this business pays about $967,000 including super
Banking days	money only moves on banking days: a payment due on a weekend or Queensland public holiday moves to the next banking day

Checks (all passed)

- ✓ Every subtotal and total adds up
- ✓ Balance sheet balances: assets = liabilities + equity
- ✓ Cash flow ends at the cash in the bank
- ✓ Profit ties to the movement in retained earnings
- ✓ Every engagement's revenue adds up to the P&L
- ✓ Work in progress equals unbilled project time; debtors equal unpaid invoices
