SAMPLE DATA · invented figures for demonstration

Which products and services are growing?

Period: April 2026. Revenue, gross margin and growth (year on year) by product or service line over 24 months. Pick a line and every number, chart and note follows it.

How final is this data?

April 2026 Locked April 2026 is locked (closed 5 May 2026). These numbers won't change.

Trades

Gross margin, not profit

Gross margin is not profit. Job gross margin = revenue less materials, subcontractors and technician time charged to the job at $68 an hour (wages and all on-costs). Not included: technician time not charged to any job (travel, training, waiting), and overheads (office wages, marketing, vehicles, rent, insurance, IT, depreciation, interest). Profit is what's left after those. Wages include their on-costs: super (12%) and leave as it's earned. No payroll tax: wages are under Queensland's $1.3 million threshold.

From gross margin to profit

April's jobs made $87,823 gross margin (47.7%). Technician time not charged to jobs took $24,208 and overheads $59,290, leaving $4,325 profit before tax (2.4% of revenue). To cover overheads, jobs need a 45.4% gross margin on average.

Gross margin on jobs	$87,823
Technician wages and on-costs	$72,352
Technician time charged to jobs (at cost)	$48,144
Technician time not charged to jobs	$24,208
Gross profit (the P&L)	$63,615
Overheads (operating expenses, depreciation, interest)	$59,290
Profit before tax (the P&L)	$4,325
Revenue	$183,967
Gross margin on jobs, %	47.7%
Profit before tax, % of revenue	2.4%
Gross margin jobs need just to cover overheads and time not charged	**45.4%**
