SAMPLE DATA · invented figures for demonstration

Which products and services are growing?

Period: June 2026. Revenue, gross margin and growth (year on year) by product or service line over 24 months. Pick a line and every number, chart and note follows it.

How final is this data?

June 2026 Locked June 2026 is locked (closed 2 Jul 2026). These numbers won't change.

Trades

Gross margin, not profit

Gross margin is not profit. Job gross margin = revenue less materials, subcontractors and technician time charged to the job at $68 an hour (wages and all on-costs). Not included: technician time not charged to any job (travel, training, waiting), and overheads (office wages, marketing, vehicles, rent, insurance, IT, depreciation, interest). Profit is what's left after those. Wages include their on-costs: super (12%) and leave as it's earned. No payroll tax: wages are under Queensland's $1.3 million threshold.

From gross margin to profit

June's jobs made $86,532 gross margin (44.8%). Technician time not charged to jobs took $27,397 and overheads $59,260, leaving ($125) profit before tax ((0.1%) of revenue). To cover overheads, jobs need a 44.9% gross margin on average.

Gross margin on jobs	$86,532
Technician wages and on-costs	$79,587
Technician time charged to jobs (at cost)	$52,190
Technician time not charged to jobs	$27,397
Gross profit (the P&L)	$59,135
Overheads (operating expenses, depreciation, interest)	$59,260
Profit before tax (the P&L)	($125)
Revenue	$193,032
Gross margin on jobs, %	44.8%
Profit before tax, % of revenue	(0.1%)
Gross margin jobs need just to cover overheads and time not charged	**44.9%**
