SAMPLE DATA · invented figures for demonstration

Which jobs actually make money?

Period: July 2026. Every job's gross margin: revenue less materials, subcontractors and technician time at $68 an hour (fully loaded: wages and all on-costs). Pick a type of job and every number, chart and note on the page follows it.

How final is this data?

July 2026 Locked July 2026 is locked (closed 4 Aug 2026). These numbers won't change.

In short: Jobs made a 43.4% gross margin in July: maintenance contracts the most (63.9%), installations the least (36.0%).

Gross margin, not profit

Gross margin is not profit. Job gross margin = revenue less materials, subcontractors and technician time charged to the job at $68 an hour (wages and all on-costs). Not included: technician time not charged to any job (travel, training, waiting), and overheads (office wages, marketing, vehicles, rent, insurance, IT, depreciation, interest). Profit is what's left after those. Wages include their on-costs: super (12%) and leave as it's earned. No payroll tax: wages are under Queensland's $1.3 million threshold.

From gross margin to profit

July's jobs made $93,486 gross margin (43.4%). Technician time not charged to jobs took $26,391 and overheads $59,440, leaving $7,655 profit before tax (3.6% of revenue). To cover overheads, jobs need a 39.8% gross margin on average.

Gross margin on jobs	$93,486
Technician wages and on-costs	$83,205
Technician time charged to jobs (at cost)	$56,814
Technician time not charged to jobs	$26,391
Gross profit (the P&L)	$67,095
Overheads (operating expenses, depreciation, interest)	$59,440
Profit before tax (the P&L)	$7,655
Revenue	$215,610
Gross margin on jobs, %	43.4%
Profit before tax, % of revenue	3.6%
Gross margin jobs need just to cover overheads and time not charged	**39.8%**
