4th The Fourth Sheet

Example report · SMEs

SAMPLE DATA · invented figures for demonstration

What does it cost to win a customer?

Period: September 2026. Marketing spend divided by the customers it actually brought in (a customer's first ever job), month by month.

How final is this data?

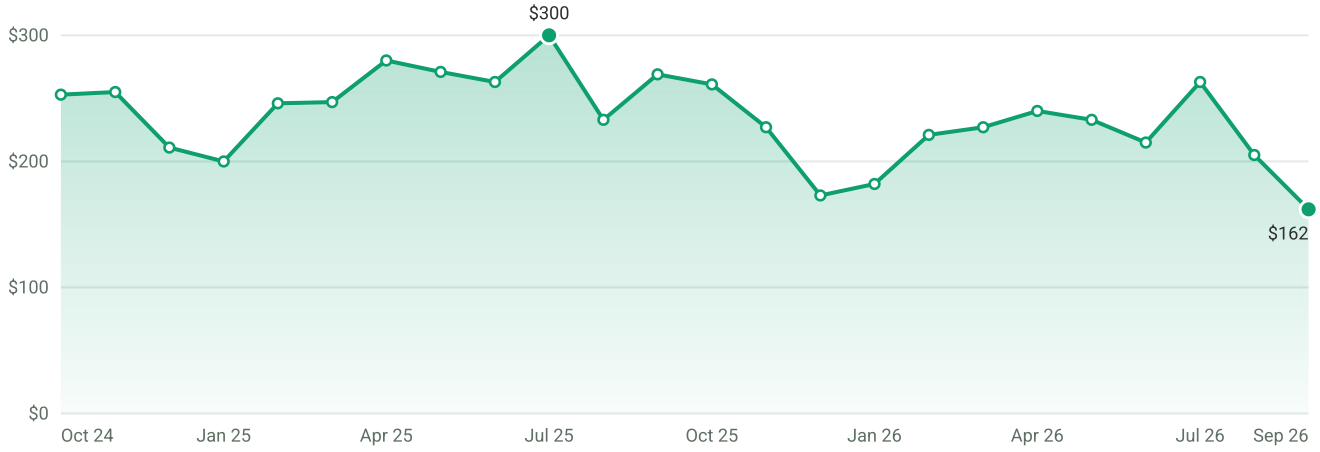

September 2026 Locked September 2026 is locked (closed 2 Oct 2026). These numbers won't change.

In short: $162 per new customer in September: 47 new customers from $7,600 of marketing.

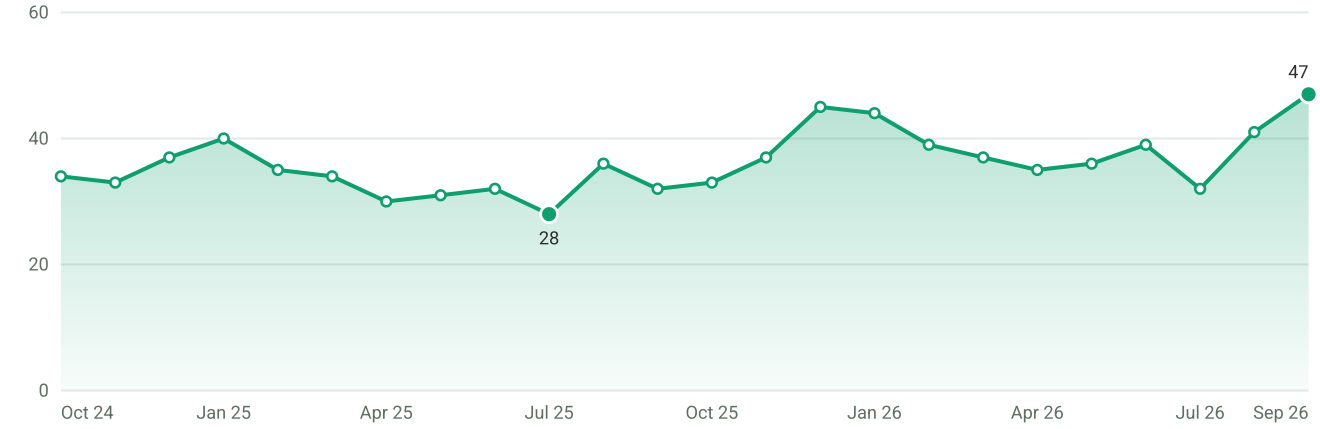

September 2026	September last year	Year to date (Jul to Sep 2026)
$162	**$269**	**$203**
August $205	32 new customers from $8,600	(23.1%) on the same period last year ($265)

Cost to win a customer, by month

All · $ per new customer

All · New customers

Customers are counted in the month of their first job. Every month, by line, is in the spreadsheet download.

What it shows

47 new customers came from $7,600 of marketing in September, against 41 from $8,400 in August: $162 each, down from $205.

What you'd do about it

A lower cost per customer with steady spend usually means the marketing mix is working. Recording where each new customer came from shows the cost per channel.
