Example report · SMEs

SAMPLE DATA · invented figures for demonstration

Which products and services are growing?

Period: October 2026 to date. Revenue, gross margin and growth (year on year) by product or service line over 24 months. Pick a line and every number, chart and note follows it.

How final is this data?

October 2026 Incomplete October 2026 is still in progress: figures to 6 Oct only.

Services

Gross margin, not profit

Gross margin is not profit. Gross margin = revenue less contractors and consultant time charged to the work at $60 an hour (wages and all on-costs). Not included: consultant time not charged to clients, and overheads (management and admin wages, marketing, rent, IT, insurance, travel, depreciation, interest). Profit is what's left after those. Wages include their on-costs: super (12%) and leave as it's earned. No payroll tax: wages are under Queensland's $1.3 million threshold.

From gross margin to profit · latest closed month: September

October is still in progress and wages are paid fortnightly, so a part month can't be bridged: this is September, the latest closed month. September's client work made $81,890 gross margin (56.3%). Consultant time not charged to client work took $14,352 and overheads $52,140, leaving $15,398 profit before tax (10.6% of revenue). To cover overheads, client work needs a 45.8% gross margin on average.

Gross margin on client work	$81,890
Consultant wages and on-costs	$60,192
Consultant time charged to client work (at cost)	$45,840
Consultant time not charged to client work	$14,352
Gross profit (the P&L)	$67,538
Overheads (operating expenses, depreciation, interest)	$52,140
Profit before tax (the P&L)	$15,398
Revenue	$145,330
Gross margin on client work, %	56.3%
Profit before tax, % of revenue	10.6%
Gross margin client work need just to cover overheads and time not charged	**45.8%**

Type of work: All

October so far against October last year **(37.5%)**
$49,055 against $78,550
